

**EMMANUEL A. RYNGAERT**

Royal Academy of Fine Arts Antwerp graduate Emmanuel A. Ryngaert explores stitch-free attire with his fashionable Meccano collection. Inspired by Meccano toys, Ryngaert's garments and accessories have laser-cut edges and perforated seams, which allow the young designer to join pieces together without needle and thread. **SHIGEKI YAMAMOTO**

Starting out as a kit of parts, Shigeki Yamamoto's Play Sideboard is an entertaining way to build furniture. Insert circular pegs into slots in wooden struts, and Bob's your uncle. [shigekiyamamoto.com](http://shigekiyamamoto.com)
